THANK YOU FOR YOUR ORDER

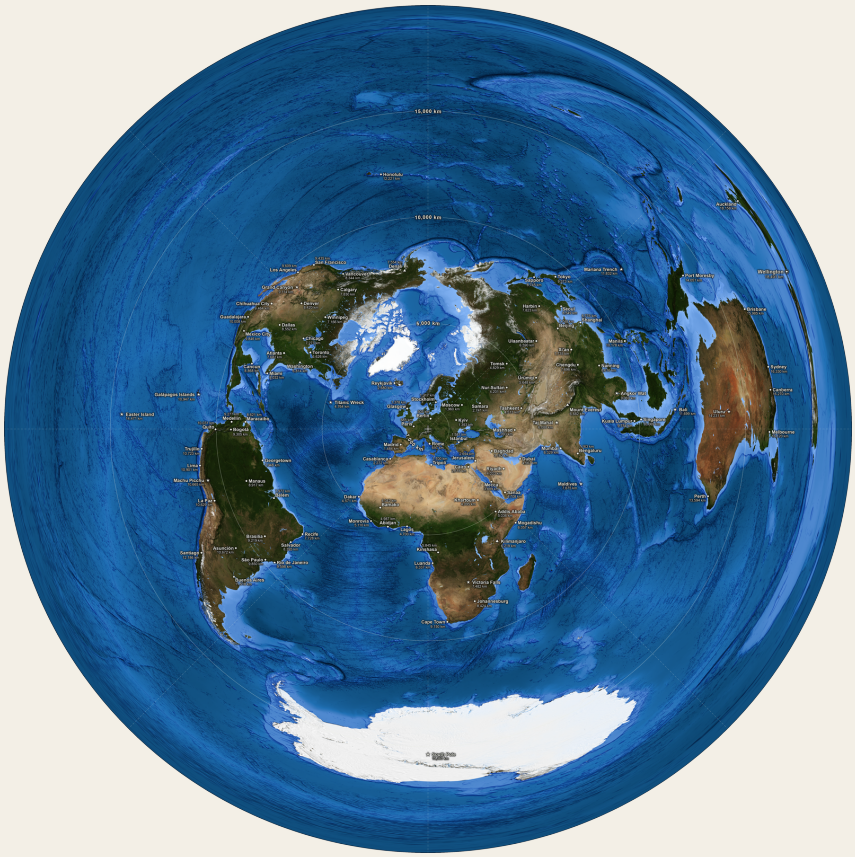

Your personal world map is on its way. Here is how it works:

1. Within 24 hours I send you a personal link via Etsy Messages.
2. There you choose the center of your map, the language, the title, kilometers or miles, and your own cities and special places. It takes about five minutes.
3. Within one to two days you receive a preview. Reply “OK” when everything is right. With your OK the map is final.
4. You then receive a download link with the print-ready files and a print guide.

Giving it as a gift? Print the gift card on the next page on A4, cut along the marks and write your names on it. The person receiving it can also make the choices on the design page with you.

Tip: thick matte paper of 200 g/m² or more looks best.
